

Quality and desired machine price are compatible!.... Media Blast offers a complete line of Sandcarving machines with Patented and Patent Pending features at prices you can afford.

## The Lineup Includes...

Direct Pressure Cabinets...Siphon Cabinets...Cabinets with no Abrasive Delivery for Existing Systems...Panel Pass Through...Pressure Generators...Mobile Models and Popular Dust Collector Sizes.

All are 100% welded cabinets and all include important features such as:

- 1 Cabinet Sizes to 48" x 48"
- 2 On Line Replacement Parts Drawings
- 3 Safety Glass View Windows
- 4 Window Protectors
- 5 Abrasive Separator Reclaimers
- 6 Large Cartridge Dust Collectors Included and Optional
- 7 Quick Pot Depressurization Controls
- 8 Industrial Abrasive Control Valve
- 9 Micro Flexible Abrasive Whip Hose w/ Tool less Nozzle Change
- 10 ASME Certified Pressure Pot w/ Access Port on Direct Pressure Models
- 11 Air Controls
- 12 Tool-less Maintenance
- 13 120 Volt Machine Operation, Standard
- 14 Totally Ergonomically Designed Sit-Down Configuration configurations

### BLAST MACHINES:

|                                                    | Part #  | \$ Price |
|----------------------------------------------------|---------|----------|
| 3024 DP                                            | 109-11M | 2600     |
| Optional VAC-110                                   | 109-12M | 395      |
| Performer 3024 w/Optional VAC-110 Vacuum Collector | 109-18M | 3793     |
| 3024 Ergo                                          | 109-20M | 4575     |
| 3624 Ergo                                          | 109-21M | 4575     |
| 3628                                               | 109-40M | 4725     |
| 4828                                               | 109-41M | 4850     |
| 3636                                               | 109-42M | 4850     |
| 4836                                               | 109-43M | 4995     |
| 4848                                               | 109-44M | 5555     |
| Mobile Compact                                     | 109-10M | 3995     |
| Optional VAC-110 Vacuum Collector                  | 109-12M | 393      |
| CrystalEtch 3024                                   | 103-40M | 3690     |
| CrystalEtch 3624                                   | 103-41M | 3690     |
| CrystalEtch 3628                                   | 103-42M | 3895     |
| CrystalEtch 4828                                   | 103-43M | 4330     |
| CrystalEtch 3636                                   | 103-44M | 4330     |
| CrystalEtch 4836                                   | 103-45M | 4600     |
| CrystalEtch 4848                                   | 103-46M | 5471     |
| MicroBlast 3024                                    | 109-22M | 3400     |
| MicroBlast 3624                                    | 109-23M | 3400     |
| MicroBlast 3628                                    | 109-31M | 3695     |
| MicroBlast 4828                                    | 109-32M | 4030     |
| MicroBlast 3636                                    | 109-33M | 4030     |
| MicroBlast 4836                                    | 109-34M | 4695     |
| MicroBlast 4848                                    | 109-35M | 5350     |
| Navigator                                          | 109-60M | 9995     |

### DUST COLLECTORS:

|                                                            |         |      |
|------------------------------------------------------------|---------|------|
| VAC-110 Vacuum Dust Collector                              | 109-12M | 395  |
| 220-3/4 Dust Collector (different blower models available) | 109-13M | Call |
| 440-3/4 Dust Collector (different blower models available) | 109-14M | Call |

### PRESSURE GENERATOR:

|                         |         |      |
|-------------------------|---------|------|
| .5 CF w/ loading hopper | 109-36M | 2295 |
|-------------------------|---------|------|
